

THE HARDY PLANT SOCIETY OF OREGON GARDEN TOURS

PAST AS PROLOGUE: Gardens of Berlin, Potsdam & Surrounding Regions

September 2—14, 2019

Pfaueninsel (Peacock Island) in the Havel River, Berlin

Germany's tumultuous and often tragic history is on display nowhere better than in its capital city. War, division and reunification have altered the city enormously. Renowned as a center of education, culture, political ferment, and as a laboratory for urbanism, Berlin and its surrounding areas also possess a proud gardening tradition. Expansive Prussian palaces and gardens, some of Europe's earliest public parks, and the nurseries of pioneering horticulturalists all bear witness to this heritage. The region is now at the forefront of environmentally sensitive and sustainable gardening movements.

This 13-day, 12-night tour takes tour members on a fascinating journey through a dynamic region, visiting public parks, private gardens and other beautiful and engrossing gardening and horticultural sites. You'll also visit landmarks stretching from the Reformation through to the 21st Century. Everywhere, you'll meet locals whose passion for gardening transcends the challenges and changes they have experienced.
